ADDITIONAL TELEPHONES

1. GENERAL

1.01 An additional telephone is a telephone connected with the same primary service as a main telephone.

2. REGULATIONS

2.01 Additional telephones are ordinarily installed in the same building as the main telephones but when facilities are available they may be installed:

a) On any premises of the same customer.

b) On premises of other than the customer if a separate primary service is furnished there.

2.02 The number of additional telephones with bells that may be installed with a main telephone is governed by the limitation on the number of bells installed on one line. The Company may determine the number of additional telephones without bells to be installed with a main telephone.

2.03 The Company does not undertake to provide satisfactory transmission on any call on which two or more telephones connected with the same service are used simultaneously.

3. RATES

3.01 Additional telephones are provided by the Company at the rates and charges specified in this Tariff.

See Section 30 Page 1 for an explanation of symbols

Issued 1995 10 17

Effective date: 1995 12 01

Approved in CRTC Telecom Order #95-1264
November 21, 1995

MULTI-LINE TELEPHONE SYSTEMS AND KEY EQUIPMENT

1. GENERAL

No longer under CRTC tariff requirement as per CRTC equipment forbearance decision.

See Section 30 Page 1 for an explanation of symbols

Issued 1995 10 17

Effective date: 1995 12 01

Approved in CRTC Telecom Order #95-1264
November 21, 1995

DISTANCE CHARGES

1. GENERAL

1.01 The regulations and charges herein apply to channels that are provided to meet special requirements of customers. Such charges are in addition to the other rates and charges applicable.

1.02 Distance charges are based on the provision or standard arrangements of equipment and facilities. When it is necessary for the Company to install special equipment or to incur any unusual expense in order to provide any of such channels, it may make an additional charge based on the equipment installed or other unusual expense incurred.

2. LOCAL CHANNEL

2.01 General

a) Local distance charges or rentals apply as follows to local channels between points in the same Exchange, other than Central Office lines. C

1) Between service points.

2) Between service points and the Rate Centre location or Wire Centre used as a measuring point on an interexchange channel provided for the customer. C

For the purpose of this section, a service point relates to a demarcation point, on a customer's premise, at mutually agreed point which is eight inches from the closest non-competitive cable terminal or at the first logical point of entry on the customer's premise.

b) Voice-grade local channels are furnished by the Company with a band-width to carry telephone speech or its equivalent.

c) The monthly distance charge provides for one pair of wires or the equivalent between the telephone or service points.

The multi element service charges provide the connection of a local channel to the service point which is the demarcation point.

d) When a multi-wire channel is provided, the following apply:

1) A charge applies for each pair of wires or the equivalent that is part of the channel when provided for the following, solely or in combination:

a. For duplex operation.

b. To connect customer-provided or lessee-provided equipment.

c. Solely within the Exchange and with no interexchange connection. C

2) When an additional single wire or the equivalent is used, it is charged for as a channel.

3) The initial 400-metre distance or ¼ mile charge, if applicable, applies only once.

4) Multi-wire channels provided under any other circumstances than specified above are charged for as single channels.

2.02 Channel Measurement

Channels between buildings on different properties:

See Section 30 Page 1 for an explanation of symbols

DISTANCE CHARGES

- 1) For a two-point local channel the charge or rental is based on the airline distance between the centres of the buildings in which the channel terminates and provides for the facilities to extend the channel to connect one or more additional telephones or service points in the same building. See Item 2.03 (c) for channels between buildings on continuous property.
- 2) For a channel between more than two points (multi-point) the following applies:
 - a) For a channel with no bunching arrangement, bridging arrangement or distributing amplifier the chargeable distance between each of the combinations of pairs of service points is determined separately. The total chargeable distance is the combination of distances connecting all service points that produce the lowest charge.
 - b) For a channel with one or more distributing amplifiers, bridging arrangements, or bundling arrangements, the chargeable distance is the sum of the following, each being determined separately:
 - A. The rental for the portion of channel between the lessee’s premises and the Wire Centre in which a distributing amplifier, bridging arrangement (or the first of two or more), or a bunching arrangement is located. If there are two or more distributing amplifiers or bridging arrangements, measurement is continued from the Wire Centre previously mentioned and is the shortest distance linking all other Wire Centres in which there is a distance linking all other Wire Centres in which there is a distributing amplifier or bridging arrangement on the same network. The rental is computed separately for each of the legs that comprise this portion of the channel. The initial 400 meter or ¼ mile distance rental applies only once. C
C
C
|
C
 - B. The rental for the portions of channel between a Wire Centre in which there is a distributing amplifier, bridging arrangement or bunching arrangement and each service point associated with it, each computed separately. The initial 400 meter or ¼ mile distance rental does not apply to such portions. C

3. RATES AND CHARGES

a) Channel between buildings on different properties:

1) Two-point local voice grade channel:

- a) For a channel provided to serve an off premise additional telephone, the chargeable distance is that between the Wire Centre that serves the main telephone and the building in which the additional telephone is installed. C

USOC	DESCRIPTION	MRC	SC
1LLBY	Initial ¼ mile	\$2.25	MESC
1ALBY	Additional ¼ mile	\$0.75	MESC

2) Multi-point voice-grade local channel:

The monthly charges or rentals apply as stated in 203 (a) (1) a) and the initial ¼ mile distance charge or rental applies once on each channel.

See Section 30 Page 1 for an explanation of symbols

DISTANCE CHARGES

b) Channels between points in the same building:

The following apply for channels provided in the same building:

- 1) Rates for additional telephone sets provide for the furnishing of service at any point in the building in which the related main telephone or switchboard is located. **C**
- 2) A monthly charge applies for any other voice grade channel I **C**
- 3) A channel that extends a Central Office line or trunk line to an answering board **C**
- 4) A monthly charge of \$1.15 (USOC 1LWC1) applies for each voice channel. **C**

c) Channels between buildings on continuous property:

- 1) When a channel is extended to connect one or more additional telephones or service points from the first telephone or service point on the customer's lessee's premises, an additional charge applies as specified in (5). **C**
- 2) The customer or lessee is to provide, install and maintain the poles or underground conduit, or do the trenching and back-filling for buried wire or cable, required primarily for local channels provided for him on continuous property. The charges specified in (5) apply only when the customer or lessee complies with this condition. When the customer or lessee does not comply with this condition, the monthly charges or rentals are those stated in Item 2.03 (a) (1) a. for voice-grade channels.
- 3) When a channel is provided between points in more than two buildings, the charge applies to the portion of channel between each pair of buildings.
- 4) All types of channels provided for the same customer are combined in determining the distance charges.
- 5) The following charges apply for h provision of each voice channel between buildings on the same continuous property of the customer or lessee:

USOC	DESCRIPTION	MRC	SC
1LWC1	Voice channel	\$1.15	MESC

See Section 30 Page 1 for an explanation of symbols

FOREIGN EXCHANGE SERVICE

1. GENERAL

- 1.01 Foreign exchange service is primary exchange service furnished from an Exchange which does not normally serve the area in which the foreign exchange customer is located. It is provided at the discretion of the Company and subject to the availability of suitable facilities and to the requirements of exchange service and message toll telephone service. **C**
C
- 1.02 Foreign exchange service is furnished with individual line service, except as otherwise specified in this Tariff. **C**
- 1.03 Foreign exchange service is furnished in accordance with the methods that best suit plant and operating requirements of the Company. When the Company has to install special equipment or incur any unusual expense in order to furnish the service, an additional charge based on the equipment installed or other expense incurred. The Company may also specify an initial service period in excess of that otherwise applicable, in accordance with Section 80-20.01. **C**
- 1.04 Extra listings are provided without additional charge as follows:
 - a) When the customer has service from each Exchange: one listing provided in the alphabetical list of the foreign exchange and one in that of the normal Exchange. **C**
C
 - b) When the customer has service from the foreign exchange only: one listing provided in the alphabetical list of the normal Exchange. **C**
 - c) Such listings contain a suitable reference to the service furnished from the other Exchange. **C**
- 1.05 Service charges and the local-service area of telephones connected for foreign exchange service are those of the foreign exchange. **C**

See Section 30 Page 1 for an explanation of symbols

MISCELLANEOUS EQUIPMENT & SERVICES

1. GENERAL

1.01 Miscellaneous equipment and services are provided at the rates and charges specified.

1.02 Items shown as de-standardized are only available on returns to stock.

2. CORDS

No longer under CRTC tariff requirement as per CRTC equipment forbearance decision

3. JACK AND PLUG EQUIPMENT

No longer under CRTC tariff requirement as per CRTC equipment forbearance decision

4. SIGNALS

No longer under CRTC tariff requirement as per CRTC equipment forbearance decision

4.02 Auxiliary Signals

No longer under CRTC tariff requirement as per CRTC equipment forbearance decision

5. PUSH-TONE

D

Push-Tone Sets:

No longer under CRTC tariff requirement as per CRTC equipment forbearance decision

See Section 30, Page 1 for explanation of symbols.

6. TELEPHONE STATION EQUIPMENT

6.01 Basic Telephone

No longer under CRTC tariff equipment forbearance decision.

7. CUSTOM CALLING FEATURES

7.01 These features are furnished with individual line service. They are provided through digital Central Office, subject to the availability of suitable facilities. **C**

7.02 The following custom calling features are provided:

- a) Call Forwarding provides for the transfer to another telephone of incoming calls by dialing a code and the telephone number of the service to which the calls are to be transferred.
- b) Speed Calling permits a customer to place calls to a previously designated list of frequently called number by dialing a speed call code rather than the complete number. There are two list lengths being 8 entries and 30 entries.
- c) Three-way Calling provides for holding an existing call and, by dialing a prefix code and the telephone number of a third telephone, extending the call to that telephone. This feature provides that only one of the three telephones may be outside the local service area of the telephone establishing the three-way call. **C**
- d) Call Waiting provides the ability for a customer to receive an incoming call when his Central Office line is in use. The called party hears a tone indicating an incoming call is waiting. At that point he can put the existing call on 'hold', or disconnect, and then receive the incoming call. **C**
C
- e) Dial Intercom Individual allows private line customers the ability to call their own number to ring telephones on the line and subsequently use the phone as an intercom system.
- f) Wake up/Appointment, provides the ability to program the telephone to ring at a time preset by the user.

7.03 The following rates and charges apply and are in addition to other rates and charges applicable:

See Section 30 Page 1 for an explanation of symbols

8. TOLL RESTRICTION SERVICE

8.01 General

Toll restriction service allows customers to block the placing of all outgoing toll calls.

8.02 Service and Equipment

Toll restriction service is provided subject to the availability of suitable equipment required for such service. It is provided on a per line basis.

Filed in confidence with the CRTC.

N

8. TOLL RESTRICTION SERVICE (cont'd)**8.03 Rates and Charges**

See Section 30 Page 1 for an explanation of symbols

10.02 Reserved for future use

D

11. CALL TRACE

11.01 Call Trace allows subscribers to initiate a trace on the last incoming call by dialing an activation code. The call is traced automatically, and the printout of the originating DN and the time the call was made is forwarded to a predetermined location, not the subscriber. The subscriber then contacts the service provider or law enforcement agency to determine further action.

11.02 The following rates and charges apply:

Service	Monthly Rate		
	Residential	Business	Service Charge
Successful trace, each			\$5.00
Maximum charge, per month			\$10.00

See Section 30 Page 1 for an explanation of symbols

13. REMOTE CALL FORWARDING

13.01 Remote Call Forwarding (RCF) enables a customer to receive long distance message toll calls from a distant Exchange at no charge to the person placing the call. Calls placed to a local telephone number in an Exchange equipped for RCF are automatically re-directed over the long distance message network to a telephone number designated by the customer. C
C

Conditions of Service:

- (1) RCF is provided subject to the availability of suitable facilities.
- (2) The monthly rate for the service is specified below and includes a listing in the directory which serves the Exchange in which RCF service is provided. C
- (3) Regular customer-dialed station-to-station rates, as specified in the Company's unregulated message toll rate schedules, apply for each call in addition to the monthly rate specified below. C
- (4) Calls placed to RCF telephone numbers cannot be re-directed as follows:
 - a. To a telephone number in an Exchange which has extended-area service with the Exchange in which RCF is provided. C
 - b. To an RCF telephone number in another Exchange of the Company or any other company. C
 - c. To a telephone number outside of Canada and the United States.

See Section 30 Page 1 for an explanation of symbols

14. IDENT-A-RING

N

14.01 Ident-A-Ring provides the ability for a customer to have one additional telephone number assigned to a central-office line. A distinctive ringing pattern is provided for each telephone number. The feature may only be associated with individual-line service which is provided for single-line applications. Directory listings for the additional telephone numbers are provided as specified in Section 140.4.

Conditions of Service

- (1) Ident-A-Ring customers who also subscribe to Call Waiting will have the distinctive Call Waiting tones applied against each Directory number.
- (2) Ident-A-Ring customers will have the choice of forwarding both the primary and alternate Directory numbers to the same Call Forwarded Telephone Number, or forwarding just one of these Directory numbers to the Call Forwarded Telephone Number.
- (3) All billing charges for the Ident-A-Ring feature shall be to the customer's primary Directory number. The Ident-A-Ring customer cannot choose which distinctive ring to apply against their primary and alternate Directory numbers.
- (4) If the Ident-A-Ring customer has a listed primary Directory number, the alternate Directory numbers may be non-published or non-listed. If the primary Directory number is non-published or non-listed, alternate Directory number must be non-published or non-listed.
- (5) Ident-A-Ring permits a customer to have coded ringing applied to an individual line. A directory listing is provided with this service.
- (6) Ident-A-Ring is not available on multi-line service.

15. RATES AND CHARGES

15.01 The following rates and charges apply and are in addition to other rates and charges applicable:

- a) A service charge does not apply for the provision of one or more Calling Features at the time primary exchange service is established or when other work subject to a service charge is being done. Otherwise, a service charge as specified in Section 110 applies.

MISCELLANEOUS EQUIPMENT

1. VISUAL CALL WAITING PACKAGE

1.01 General

Visual Call Waiting Package enables a customer to receive the Call Waiting tone and to view the Call Waiting party's number and name. The customer must subscribe to Call Display and Call Waiting and have compatible equipment for Visual Call Waiting to work.

- (i) The terms and conditions of Call Display and Call Waiting will apply.
- (ii) All components within Visual Call Waiting are provided, subject to the availability of suitable facilities and equipment.

2. CALL TRANSFER (CT)

2.01 General

Call Transfer enables a business customer to transfer an established call to another line and to disconnect after the three-way call is established.

- (i) CT is available only to business customers with up to 30 lines.
- (ii) Where the use of local telephone services equipped with CT results in local calling volumes which prevent the fair and proportionate use of O.N.Telcom's local network by others, O.N.Telcom will, pursuant to Article 8, Restrictions on use of Service, of the General Terms of Service, impose limitations upon such local services to the extent necessary to ensure fair and proportionate use.

3. CALL DISPLAY

3.01 General

Call Display enables a customer to view the name and number of the calling party, after the first ring and before the call is answered. Call Display requires a telephone number and name delivery compatible display device.

- (i) Displayed names are restricted to 15 characters, including spaces. Customers may request O.N.Telcom to change the name that is displayed from their line. For a residential customer, the name displayed must include the family name as contained in the Company's Directory listing. For a business customer, the name displayed must be uniquely identifiable with that business. Alternately, customers may request O.N.Telcom to substitute "Private Name" for display in place of their actual name or business name.
- (ii) With the exception of any provisions of the Company's Tariffs, or to Article 11, Confidentiality of Customer Records, of the General Terms of Service, any unlisted telephone number from which a call originates will be displayed, if facilities permit, on a call-by-call basis to customers who subscribe to Call Management Services, which deliver a telephone number and to the Company for Call Trace. Customers who at any time do not want their name and/or number displayed may choose to have "private" displayed at no charge or the option identified in Call Blocking.

See Section 30 Page 1 for an explanation of symbols

- (iii) Customers may request to change their displayed name once at no charge. An Order Processing charge, General Tariff Section 110, Service Charge, shall apply to each subsequent name change.
- (iv) Customers who subscribe to the Call Display shall provide at their own cost an appropriate and compatible display device to attach to their Exchange access line. **C**
- (v) The Company shall forward incoming telephone numbers and names to customers who subscribe to the Call Display feature. Calls that are blocked will be displayed as "Private" or "Private Number", depending on the customer's terminal equipment. When numbers are not delivered, such calls may be displayed as "Unknown Number" or "Out of Area" depending on the customer's terminal equipment. **C**

4. THE COMPANY'S PICK SIX PACKAGE **C**

4.01 General

The Company's Pick Six Package provides residential and business customers a choice of either six calling features or four calling features and Visual Call Waiting. **C**

Eligible Calling Features - Voicemail (Note) , Call Display (Name and Number), Visual Call Waiting, Three-way Calling, Call Waiting, Call Screen, Call Forwarding, Call Return, and Ident-A-Ring.

Eligible Customers - New and existing individual line residential and business customers who subscribe to three lines or less.

Terms and Conditions

- (1) The components which comprise the packages are as described in Sections 490-7 (a), (c) and (d) Voicemail (Note) , Call Display, Call Screen, Call Return, and Ident-A-Ring, with the exception of Visual Call Waiting, which is the combination of Section 490-7 (d) and Call Display..
- (2) The components of the Company's Pick Six Package are provided, subject to the availability of suitable facilities and equipment. **C**
- (3) The package is not available on equivalent lines.
- (4) Visual Call Waiting will be equivalent to two calling features for purposes of determining the number of calling features eligible for the package.
- (5) Customers can subscribe to a maximum of one Ident-A-Ring number per package. However, each Ident-A-Ring number is equivalent to one calling feature within the package.
- (6) Customers can make changes affecting calling features to their package at any time. An Order Processing charge, General Tariff Section 110-2.02-a, Service Charge, shall apply each time a change occurs.
- (7) Customers can subscribe to other calling features outside the package at the appropriate rate.

Note: Voicemail is forborne from regulation

See Section 30 Page 1 for an explanation of symbols

5. CONSUMER AND BUSINESS SOLUTIONS

5.01 General

Provide eligible customers with a choice of one of the following five packages:

- i. Ontera's Accessibility Package includes:
 - 1. Call Forwarding
 - 2. Call Return
 - 3. Call Waiting
 - 4. Three-way Calling

- ii. Ontera's Display Package includes:
 - 1. Call Forwarding
 - 2. Call Return
 - 3. Call Waiting
 - 4. Three-way Calling
 - 5. Call Display (Name and Number)

- iii. Ontera's Messaging Package includes:
 - 1. Call Forwarding
 - 2. Call Return
 - 3. Call Waiting
 - 4. Three-way Calling
 - 5. Call Display (Name and Number)
 - 6. Voicemail (Note)

- iv. Ontera's Mini-Display Package includes:
 - 1. Call Display (Name and Number)
 - 2. Call Forwarding
 - 3. Call Return
 - 4. Three-way Calling

- v. Ontera's Mini-Messaging Package includes:
 - 1. Voicemail (Note)
 - 2. Call Display (Name and Number)
 - 3. Call Waiting

C

C

5.02 Eligible Customers

New and existing individual line residential and business customers who subscribe to three lines or less.

5.03 Terms and Conditions

- a. The components which comprise the packages are as described in Sections 490-7 a, c and d, and Call Return Section.

C

Note: Voicemail is forborne from regulation

N

See Section 30 Page 1 for an explanation of symbols

-
- a. The components of any of Ontera's Consumer and Business Solution Packages are provided subject to the availability of suitable facilities and equipment.
 - b. The package is not available on equivalent lines.
 - c. Customers can have only one offer on a given line.
 - d. Customers can subscribe to other calling features outside the package at the appropriate rate.
 - e. Customers who cancel their subscription to a Consumer and Business Solution offer during a billing period and continue to subscribe to the line with or without some calling feature will be charged a pro-rated monthly rate for the offer.

See Section 30 Page 1 for an explanation of symbols

Issued/Publication 02/12/04

Effective date: 06/01/04

Approved in CRTC Telecom Order #2004-179
June 1, 2004

MISCELLANEOUS EQUIPMENT

6. RATES AND CHARGES

The following rates and charges apply and are in addition to other rates and charges applicable.

- (a) A service charge does not apply for the provision of one or more CMS features at the time primary exchange service is established or when other work, subject to a service charge, is being done. Otherwise, a service charge as specified in Section 110 applies.

Service charges will be waived for an introductory period of the two months immediately following the availability of the features in the serving Exchange.

INTEREXCHANGE SERVICES - GENERAL

1. GENERAL

1.01 Interexchange services and channels provide for communication between Exchanges or other Rate Centres. **C**

1.02 The Company does not set rates for Message Toll Service which include:

- a) Two-point service
- b) Conference service
- c) Overseas service
- d) Ship, Train and Aircraft service.

1.03 The Company also does not set charges and rentals for those portions of leased or rented interexchange channels and associated equipment that extend or are provided beyond the point of connection of the Company's facilities with those of other Carriers. **C**

1.04 Rates and charges for Message Toll Service and for interexchange channels and equipment extending beyond the point of connection with other Carriers, are contained in the approved tariffs of the inter-connecting Carriers and a copy of the relevant sections of these tariffs may be inspected at the Company's business office during regular business hours. **C**

USE OF CUSTOMER-PROVIDED EQUIPMENT WITH THE COMPANY'S FACILITIES

1. GENERAL

- 1.1 Equipment, apparatus, or devices provided by a customer shall only be attached to or connected to or used with the Company's facilities in accordance with the requirements stated herein or such further and other requirements as may be specified from time to time by the Company.
- 1.2 Such equipment, apparatus, or devices shall be suitable for operation or use with the Company's facilities.
- 1.3 Any such attachment, or connection to or use with the Company's facilities shall be such that, in the Company's opinion, it does not damage, interfere with or create a hazard of damage or impair the functioning of the Company's service, equipment or channels or create a hazard of danger to the users of the Company's service, equipment or channels, its employees or the public.
- 1.4 The customer shall not have, acquire, secure, or derive any property or patent right in or control over the Company's equipment, apparatus, lines, channels or devices to which such attachment, connection or use is made or any property or patent right in or control over the design, function, operation or layout of the Company's equipment, apparatus, lines, channels or devices. The Company reserves the right to change, in whole or in part the design, function, operation or layout of its equipment, apparatus, lines, channels or devices as it considers necessary. The Company shall not be responsible to the customer for any of this equipment, apparatus or devices, either in whole or in part, which ceases to be compatible with the Company's facilities or become inoperative because of such changes to the Company's equipment, apparatus, lines, channels or devices.
- 1.5 The Company does not make any representation that its facilities are adapted to the use of the customer-provided equipment, apparatus or devices.
- 1.6 The Company may make such tests and inspections as it considers necessary to determine whether the customer is complying with any or all requirements herein. If, in the Company's judgment, such attachments or connections or use with the company's facilities do not conform to these requirements, the Company may, at any time, take such action as necessary or remove the attachment or interrupt or terminate the connection or use with the Company's facilities.
- 1.7 When such attachment or connection to or use with the Company's facilities causes the Company to incur any unusual expense or any loss or damage it may recover any unusual expense or any such loss or damage from the customer.
- 1.8 The limitation of the Company's liability in the attachment, connection or use by a customer or any other person of such customer-provided equipment, apparatus or devices is specified in section 80-16.
- 1.9 Only customer-provided terminal equipment certified under the Terminal Attachment Program of the Government of Canada may be connected to the Company's facilities.

2. SINGLE LINE SERVICE**2.1 Individual Line Service**

Individual line business and residential customers may provide and connect certified terminal equipment (item 1.9) to the Company's jack connection.

USE OF CUSTOMER-PROVIDED EQUIPMENT WITH THE COMPANY'S FACILITIES

Customers may also provide and attach terminal equipment by means of an acoustical or induction connection.

3. MULTI LINE SERVICE

3.1 Multi-line customers may provide and attach to the Company's facilities certified terminal equipment (item 1.9). The equipment is connected at the demarcation point on the customer's premises.

3.2 Customers may also provide and attach terminal equipment by means of an acoustical or induction connection.

4. DIAGNOSTIC MAINTENANCE CHARGE

4.1 The customer, residence or business, is responsible for the operation and maintenance of customer-provided equipment, apparatus or devices attached or connected to or used with the Company's facilities.

When diagnostic testing is made to determine the source of a trouble, and only if the source of the trouble is found to be within the customer-provided equipment, apparatus or devices, a service charge applies for each trouble reported.

DIGITAL NETWORK SERVICES**1. SWITCH 56 DATA SERVICE****1.01 General**

- (a) Switch 56 Data Service provides customers with digital end to end connectivity through the switched network service by using the access components of a local access and a digital data service unit.
- (b) The Switch 56 Data Service functions when the serving address is between 4.0 cable kilometers using 26 gauge cable and 5.5 cable kilometers using a 22 or 19 gauge from the Central Office switch. Beyond this distance, a special assembly is required.
- (c) The Switch 56 Data Service Feature provides for digital call completion at speeds of up to 56 kilobits per second and allows the company to offer enhanced and intelligent switched high speed digital applications such as Group IV fax machine transmission, video conferencing, high speed Personal Computer file transfer and medical imagery transfer.
- (d) The Switch 56 Data Service Unit is a proprietary standalone unit located at the customer premises that interfaces the network to perform network signaling, call supervision, functions and activates test functions as specified by network commands.
The Switch 56 Data Service Unit terminates on a 6 position teledapt connection arrangement, eliminating the need for costly special data cables.

1.02 Rates and Charges

- (a) The following monthly recurring rates and service charges provide for the appropriate Switch 56 Data Service Components.

USOC	DESCRIPTION	MRC	SC
DSF	Switch 56 Data Service Feature	\$40.00	MESC
